

Discussion Ideas

*Here are some questions
to engage students throughout the lesson:*

- Have you ever cooked at home or at a friend's house? Tell us about it. How did you help? What was easy or difficult about it?
- Have you ever had a meal like this before? If so, where? How was it similar? How was it different?
- What are some of your favorite foods? Who makes it for you? Where do you eat it? Who do you eat it with?
- Do you have a favorite type of food? Have students describe the flavors that they associate with that type of food. This could lead to a discussion about different cultures and flavors associated with that culture.
- Have you ever had food from a country or culture that is different than your own?
- Why do you think people like to cook for others?
- Why do you think it's important to learn to cook?
- Why do you think we're using this kitchen tool for this recipe?
- Can you think of another way to prepare this recipe? Describe it.
